At American Solutions for Business, we're committed to providing solutions that will help achieve key business objectives:

- Improvement in Productivity
- Efficiency Gains
- Reduced Labor Costs
- Streamlined Processes
- Confidentiality

One area that offers opportunities to achieve these objectives is in the processing and distribution of business communication documents. The answer is Ameraseal.

Ameraseal automates office mailings by turning a stock or customized form into a mailable document in a matter of seconds. This eliminates the tedious and repetitive tasks of folding documents and envelope labeling, stuffing, and sealing.

There are a number of uses for the Ameraseal systems including, but not limited to:

- Automating monthly invoice and payment functions.
- Managing your own payroll mailings (checks, statements, tax forms).
- Sending reminders and statements to customers on a regular basis.
- Distributing confidential reports such as customer information, PIN numbers, or test results.
- Sending small promotional pieces such as coupons, gift certificates, and offers.
- Mailing questionnaires, grade reports, and student schedules.

Ameraseal software and certified Ameraseal forms are also available to ensure that your documents print correctly and have a secure seal.
